Title 107 STATE ENERGY OFFICE

Chapter 3 - APPLICABILITY

001 All new buildings, except those excluded by section 002 of this chapter, or those which fall outside the scope of the Standard, and additions (of 5% or more to the floor area) and renovations (costing more than 50% of the value of the building) to all such buildings on which construction is initiated on or after August 26, 1983, shall be constructed so as to comply with the Standard or a local code equivalent to the Standard.

002 The following buildings are exempt from the requirements of the Standard:

002.01 Any building with a design energy use rate (excluding process or industrial energy use) of one watt or less per square foot of floor area.

002.02 Any building which is neither heated nor cooled.

002.03 Any building or part of a building which is owned by the United States of America.

002.04 Any mobile home or manufactured housing unit:

002.05 Any historic building as defined by subsection (f) of section 81-1615, NRRS.

002.06 All residential buildings are exempt from the lighting requirement portion of the Standard.
